Attention: Rudolf Angermayr  
*General Manager*  
*Expoxx GesmbH*

Dear Mr Angermayr:

Tactical Communications Group, LLC wishes to thank EXPOXX for their outstanding support of our needs at the recent International Data Links Symposium 2009 at the Wien Messe. The booth design and construction was superb and far superior to any alternative we had explored from other vendors. During the Symposium our booth created interest and conversation about our company – and the features you provided added greatly to our ability to entice people and show them our capabilities. We would recommend EXPOXX to anyone for the innovative design, the strong construction, the reasonable pricing, the convenience to the venue – and most importantly, the personal attention provided by outstanding EXPOXX personnel from the booth's conception to its completion.

In particular, we wish to thank Christian Komosny, Michael Schilcher, and Katharina Wedar for their service, patience and assistance throughout the process. All showed thoroughness and attention that is rare and often at a sacrifice to their personal time. They exemplified the finest example of Austrian hospitality and business acumen.

We hope we are fortunate enough in the future to be able to ask EXPOXX to assist us in our needs. Please pass our best and appreciate to all involved.

Regards
